## PROFESSIONAL SUMMARY

Aspiring Full Stack Developer and AI Developer skilled in building scalable web applications using JavaScript frameworks. Strong problem-solving foundation with 350+ LeetCode problems solved and reflected in a 900+ rating in Codeforces. Driven by deep curiosity and a desire to build impactful systems, committed to clean architecture, reliable engineering practices.

## EDUCATION

<b>Bachelor of Technology</b> (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 7.97/10.0
<b>Intermediate (Class XII)</b>	2022 - 2024
Narayana Junior College	Grade: 91.7%
<b>Matriculation (Class X)</b>	2021 - 2022
Motessori High School	Grade: 91.3%

## INTERNSHIPS

<b>React Native Frontend Developer</b>	September 2025 - November 2025
Apodic Software Solutions LLP	<i>Remote</i>

- **Tech Stacks:** React Native, Expo, JavaScript, REST APIs.
- **Description:** Worked with an international client on a mobile application, contributing to a structured 10,000+ line codebase. Focused on implementing secure authentication, optimized APIs, and scalable interface components.
- **Features worked on:**
  - Implemented Google Authentication setup ensuring a secure and seamless login experience for the application.
  - Developed visually refined UI components that enhanced user interaction and maintained consistent design quality.
  - Integrated and managed API calls with error handling and performance improvements to ensure reliable data flow.

## PROJECTS

<b>Novelverse</b> ( <a href="#">Github</a> ) ( <a href="#">Demo</a> )	October 2025
---	--------------

- **Tech Stacks:** Next.js, React, TypeScript, Tailwind CSS, Postgresql, Prisma ORM, Docker, JWT Authentication, Vercel.
- **Description:** Built a full-stack reading platform to give users **free access to curated books** with a clean interface. Designed a distraction-free experience to ensure consistent performance, optimized rendering and smooth user experience.
- **Features:**
  - Enabled users to explore trending books, open detailed books, track reading activity with fast PDF rendering
  - Integrated secure and seamless authentication, responsive UI components, and optimized data handling to ensure a smooth, consistent reading experience.

<b>E-Commerce(Stylish Lady Collection)</b> ( <a href="#">Github</a> ) ( <a href="#">Demo</a> )	May 2025
--	----------

- **Tech Stack :** Next.js, TypeScript, React, Supabase, Razorpay, JWT Authorization, Vercel.
- **Description:** Developed a production-ready e-commerce platform for a family business to streamline real-time client handling, product management, and order coordination. Designed secure admin controls and responsive workflows.
- **Features:**
  - Integrated Razorpay for seamless payments.Used JWT-based authentication to enforce admin vs user roles.
  - Built a secure admin panel for managing products and clients. Added a dynamic CMS to update cards, images and content efficiently.

## SKILLS

**Computer Languages:** SQL, JavaScript, CSS, HTML, NoSQL, TypeScript, Python

**Software Packages:** MongoDB, MySQL, Express JS, Bootstrap, Node.js, React, Prisma ORM, Next JS, Tailwind, Pandas

**Soft Skills:** Responsibility, Critical Thinking, Creativity, Leadership

**Others:** Supabase, Docker

## EXTRA-CURRICULAR ACTIVITIES

Recognized as a HacktoberFest Super Contributor for consistent open-source participation and noted for strong problem-solving engagement reflected in competitive coding and continuous algorithmic practice.
